# Welcome

---

Welcome artists and designers to the Character Physiognomy Guide, your go-to resource for creating compelling and realistic characters through an understanding of facial features. As artists, you know that every detail counts when it comes to creating memorable characters that resonate with audiences, and facial features play a crucial role in bringing characters to life.

In this guide, we will explore the many ways in which different facial features can help you create characters with unique and believable personalities. From the shape of the forehead to the fullness of the lips, we will delve into the traits that each feature is commonly associated with, and show you how to use that knowledge to create characters that feel authentic and fully realized.

Whether you're a seasoned artist or just starting out, this guide is an invaluable tool for anyone looking to add depth and nuance to their characters. So join us on this journey of discovery and learn how to use facial features to create characters that are as fascinating and complex as real people.

# ROUND FACE

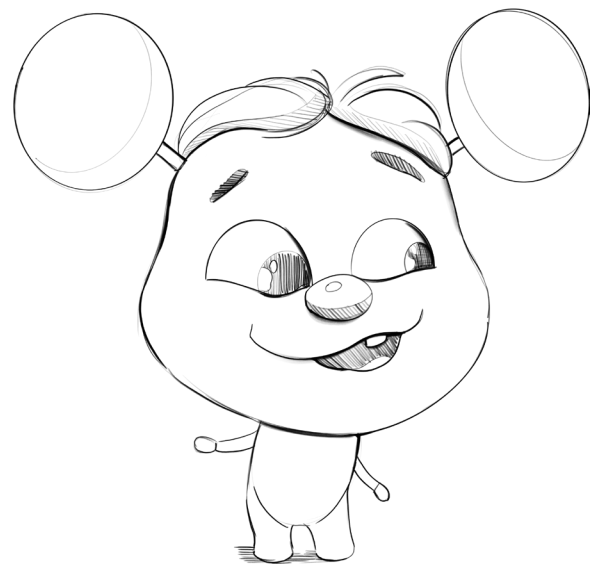

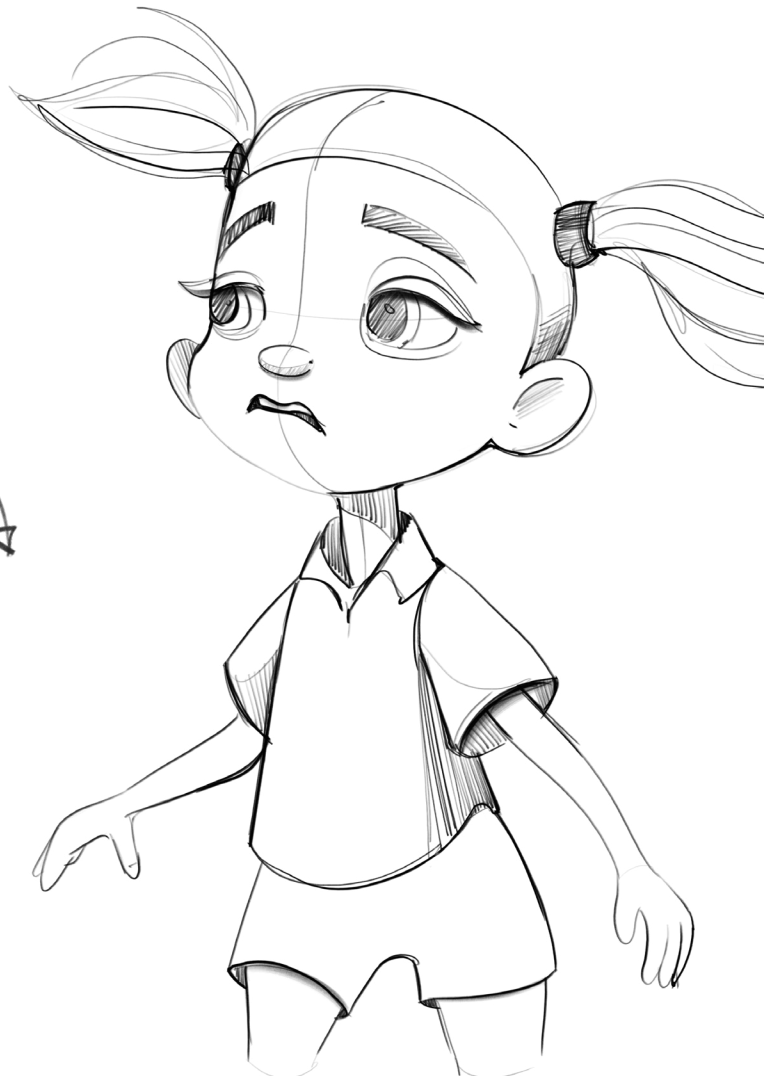

# Round Face

A round face is usually associated with kind, soft character traits. Characters with a round face tend to show kindness and empathy towards others, and are often very friendly and affable. They are known to be humane and sensitive to other people's problems, displaying empathy and understanding towards them.

Characters with a round face usually possess qualities such as benevolence, nobility, humanitarianism, and humanity. They are generally not prone to conflicts and fights, preferring to resolve disagreements peacefully. They can be good friends and reliable partners in relationships.

*The characters with round faces often appear friendly and cute*
